

COMPANY OVERVIEW

MASDA CHEMICAL PTE LTD is a well-established company in Singapore. It's nature of business includes basic importers, exporters, manufacturer's representatives and stockists of chemicals to serve the unique, if not specialized needs of the relevant industries in the Asia and Pacific Regions.

MASDA CHEMICAL PTE LTD has established a foothold in gaining the complete trust and confidence from its customers and overseas manufacturing principals. This stems from its aggressive energy, dedication and commitment to render the best service, reliability price competitiveness, quality control consciousness and a comprehensive chemical coverage. Most critical of all, we have built a solid reputation as a company of integrity.

Customer satisfaction has always been a main objective of our company's philosophy. This objective has led us to represent a selected group of manufacturers whose products complement those of high standard quality.

The majority of the manufacturers and trading organizations we present or are in business with are large establishments. Our business objective has always been geared towards a long-term growth complementing the mutual benefits of both parties, our principals and us.

MASDA CHEMICAL (PTE) LTD
